CAD Designer- Farrell Design-Build

Farrell Design Build is seeking a CAD Designer. Are you interested in the challenging deep foundation industry? Do you want to be a leader in the larger Bay Area, Los Angeles, and Sacramento Valley building industry?

Then join our exciting team to push forward with innovative foundation support solutions.

At Farrell Design-Build, we want our customers, partners, and employees to know, that above all else we are honest and firm, we strive to be graceful and humble, and we persist to be proactive in our work and relationships.

If you have the required skills and the driven can-do attitude that Farrell is looking for, then consider applying for the Full-Time **CAD Drafter and Designer** position.

Job Description: *The information below describes the general nature of the position and serves as a summary of the typical job functions; it's not a comprehensive list of all possible job responsibilities, tasks, or duties.*

Job Purpose and Expectations:

1) With the direction of engineering staff, you will draft drawings and civil structural details for commercial, industrial, and mixed-use construction projects.
2) Assist with Quality Control post-processing.
3) Coordinate with project engineers and principals in the development of construction drawings.
4) Create and maintain CAD detail libraries and organize project records/files.
5) Draft plans and details using AutoCAD and Farrell drafting standards from hand-drawn sketches.
6) Assist project engineers with material takeoffs (quantities and costs) based on existing and proposed construction using spreadsheets and general document preparation.
7) Interpret blueprints and topographical maps.

Required Education/Training/Work Experience:

1) Associates degree in CAD <u>or</u> equivalent experience and training.
2) Two+ years progressive experience in drafting.

Key Requirements:

1) Must display excellent attention to detail and good organization skills.
2) Driven and self-motivated, can work independently and seek help when needed.
3) Excellent command of English language (oral and written).
4) Must be able to troubleshoot work and solve problems.
5) Ability to prioritize and manage multiple projects.
6) Microsoft Outlook and Word literate.
7) Proficient in Excel and able to work manipulate data.
8) Advanced Proficiency in use of computer-aided design software (AutoCAD Design Suite).

We maintain a drug-free workplace and perform pre-employment substance abuse testing. Salary range is based upon experience and skill set. Farrell offers a benefit package which includes performance bonus, medical benefits, SIMPLE IRA, and PTO (Paid Time Off) for qualified employees.
