

## **ESTIMATING ENGINEER – FARRELL DESIGN-BUILD, INC.**

**Farrell Design Build wants your bid strategy, proactive attention, and estimating expertise to accelerate and support our growth in California and the West Coast. Farrell specializes in true Design-Build Ground Improvement, Deep Foundations, and Shoring projects with our own staff of registered engineers, union operators, heavy equipment, and tools. Farrell leads the California ground improvement industry since 1999.**

This is an exciting and challenging job opportunity in the growing deep foundations and shoring industry. The true Design-Build nature of our business, our collaborative process, and our specialized experience with industry-changing ground improvement has earned Farrell the great reputation as quality outside-the-box thinkers with proven solutions who get the job done. Farrell works with the big General Contractors and Developers, which will expose you to bids on complex and award-winning projects throughout the Western United States.

Farrell's Core Values: Safety First, Honesty & Integrity, Proactive & Persistent Service, and Quality Solutions.

Farrell Design Build is seeking an **Estimating Engineer** to develop accurate and timely bids and budget estimates for ground improvement, deep foundation, and shoring projects.

### **JOB PURPOSE & EXPECTATIONS:**

- 1) Analyze and compile bid data for labor, materials, equipment, subcontractors, and other factors to ensure a quality and timely Bids and Budgets.
- 2) Collaborate with Design Engineers to review and analyze drawings, specifications, and proposed project geological conditions to address poor soil sites. Solicit subcontractor bids and quotes to include in Farrell's final bid.
- 3) Apply proactive and follow-up processes to ensure bids are accurate and complete.
- 4) Communicate and review bid strategy with in-house operations to ensure understanding of scope of work and critical means and methods of the proposed construction.
- 5) Analyze alternative solutions and methods to increase competitiveness of bids.
- 6) Perform and review take-off quantities to ensure accuracy of data used in bids.
- 7) Prepare estimates with the proper level of detail for all design stages: Conceptual, schematic design, design development, and construction documents.
- 8) Consult with clients, Geotechnical Engineers, Structural Engineers, Developers, and General Contractors to discuss and formulate estimates, effect cost reductions, and resolve problems.

### **REQUIRED EDUCATION/TRAINING:**

- 1) Bachelor's Degree in Construction Management, Civil Engineering, or related field.
- 2) 2-5 years estimating experience in Construction.

**REQUIRED SKILLS:**

- 1) Ability to manage and track multiple preconstruction bids at once.
- 2) Analyze alternate means and methods to determine the most economic construction alternative.
- 3) Read and interpret specifications, drawings, and geotechnical reports.
- 4) Working knowledge of construction costs methods and bid principles.
- 5) Advanced user of Microsoft Office Suite (Excel, Word, Outlook). AutoCAD a plus.

**BENEFITS & PERKS:**

- 1) Competitive salary and annual bonus package.
- 2) Full insurance benefit package including medical, dental, vision, and life.
- 3) SIMPLE IRA retirement with generous matching.
- 4) Paid Time Off for vacation and sick (PTO)
- 5) Holiday pay – 8 paid holidays per year.
- 6) Employee stock purchase program.
- 7) Employee referral bonus program.
- 8) Positive & productive workplace culture.
- 9) Team building with celebrations and semi-annual employee company parties.

**PROFESSIONAL & PERSONAL DEVELOPMENT:**

- 1) Qualified education reimbursements.
- 2) Professional registration and certifications bonuses.
- 3) Seminars, technical and skills trainings, and conference attendance promoted and encouraged for all employees.
- 4) Praise and celebration of achievements.
