Dear Tom,

Brown Construction, Inc. thanks you and your crew for the fine performance here at the UCD Mathematical Sciences Project. It was a pleasure to watch a heavy equipment crew work so well together in our tight space under many watchful eyes. We appreciate your flexibility and creative thinking to keep our project on schedule. I'm sure our mutual client UCD appreciates the cost savings your geopier system provided as well. If you ever need a reference don't hesitate to call us.

Thanks again,
