Subject: California State University Chico
Normal Avenue Parking Structure

Dear Tom,

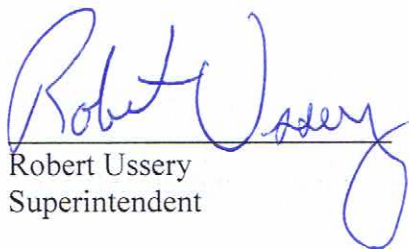

We would like to thank you and your crew for the great job installing ground improvement aggregate piers at the Normal Ave. Parking Structure project. The work was completed last Thursday. The crew that you had on our site was very professional and easy to work with. I would hope that we can work with your firm in the future. Thanks again for a job well done.

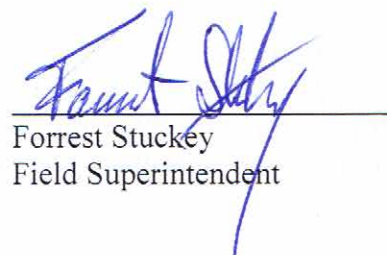

Our Superintendent, Forrest Stuckey said of the project: "Justin and the rest of the Farrell crew performed their duties with care, precision and professionalism. They maintained a safe working environment, coordinated well with other site activities and kept their operation in a tidy fashion. They were a pleasure to work with and I would have no problem recommending them in the future."

Because of the project's success and Farrell's excellent customer service, we will be looking for future opportunities using your services and will recommend Farrell Design-Build as a foundation solution provider on our projects.

We look forward to working with the Farrell team on future projects!

Sincerely,
Otto Construction

Robert Ussery
