Re: Olympic Place, Walnut Creek, CA

Dear Tom:

We are nearing completion of the Olympic Place project in the next two months and I just want to take a moment to let you know how much we appreciate your efforts in finishing your work quickly and helping us get a great start on this project.

We had a few problems on this project and with your company's assistance we got through them quickly. Michael and Bill's preplanning on dealing with the contaminated soil eliminated any slow down on the schedule. When we hit an unknown during drilling, the soils engineer was slow to make a decision. With your company's assistance we were able to expedite the solution and minimize the cost.

We recommend the use of Geopier for all suitable projects. I look forward to working with you on the next project and anticipate it to be just as successful.

Sincerely,

Sundt Construction, Inc. Northern California

Marie L. Crist
Project Manager
